What We're All About

Westmoreland Cleanways and Recycling is a non-profit 501(c)(3) organization whose mission is to protect, restore, and maintain the environmental qualities of our county for the benefit of all who live, work, and visit herein. We accomplish this mission by operating a recycling center for hard-to-dispose material, offering bi-monthly household hazardous waste collections, sponsoring, and promoting community programs that address the proper disposal of solid waste, supporting the cleanup of illegal dumpsites and littered areas, and educating the public through presentations, and print and digital media.
